

Make a milk bottle mask

Picture tutorial

© Emma Kerr

You will need:

Milk bottle

Cardboard tube

Scissors

Craft knife*

Tin foil

Tape

Paper

PVA glue

*Find an adult to do the cutting with a craft knife

Cut your milk bottle into a mask shape, using the handle of the container as the nose of your mask

Attach the cardboard tube to the chin of the face

Apply PVA glue to the whole of your mask and carefully apply tin foil all over

You might wish to decorate the foil with paint or spray paint

NB leaving the mask overnight to allow the tinfoil to stick to the mask before adding more decoration is recommended

Add further decoration as
you wish!

Here is the list of used
materials for this mask

Folded paper

Marker pen/ sharpie

Electrical tape
