

Autumn Leaf Collage

Collect leaves when you go out for your walk. See what different shapes, colours and sizes you can find.

Can you find any interesting seeds or twigs to add to your picture?

We went home and decided to create a woodland animal using the leaves we had found.

We drew the outline of a hedgehog onto a big piece of coloured card and then stuck our leaves down using lots of PVA glue! A glue stick would work too.

We used the cup of an acorn for the eye and a piece of felt for the face.

We then added sequins and buttons we had in our craft box to make it look more colourful.

What animal could you create from the leaves, twigs and seeds you have collected?

You don't have to create an animal, it could be a woodland scene, a colourful pattern, or whatever comes into your imagination!
