16	Are the cells included in the Commission?	Unfortunately not. We will not have the funding to provide either stepped or lift access to the cells, though they may be used for guided tours.	17/11/2023
17	Where do you think the paywall will be?	We think it important that there is free access to the central 'spine' of the building. We will charge for the permanent and special exhibition galleries. There may also be some 'taster' interpretation / displays in the 'public areas', including the multi-use event space.	17/11/2023
