18	Will there be input during the project from curators and conservators at Wiltshire Museum? And if so, what will be the nature of this input and their level of involvement.	Our Museum Curator will be involved throughout the process. During the Development Phase they will be heavily involved in creating the Interpretation Plan and will be on hand to provide knowledge and expertise during the development of exhibition specifications. During the Delivery Phase we plan to recruit an additional collections post to support our Curator during the project. Our curatorial team will be responsible for text panel development.	24/11/2023
19	Does the contractor require any accreditation to be successful?	No, as long as the contractor can demonstrate how they meet the award criteria.	24/11/2023
20	Can you share information regarding the current colour/fonts/graphic brand style	Currently the Museum uses FS Albert for graphic panels. Our recently updated galleries all follow the same brand style, developed during the development of our Prehistoric Wiltshire Galleries. Example panel is available here:	23/11/2023
